QUALITY STANDARDS AND ACCREDITATIONS

AS/NZS ISO 9001:2015

IPC/WHMA 620
Certified Trainer

Complete Wiring also operates an in-house quality assurance system based on IPC/WHMA-A-620 which utilises automatic testing machines by Cable Eye. All items are 100% inspected and tested.

COMPANY INFORMATION

Complete Wiring is a leading, local supplier and manufacturer of high quality custom designed cables, cable assemblies, cable harnesses & wiring systems. The wide range of services available encompass every stage of the project, from design, selection, manufacture and testing. Complete Wiring are equipped with the skills and resources to assist customers with the full scope of any project, from beginning to end.

BUSINESS SUMMARY

Established in 1996, Complete Wiring is privately owned, offering more than 20 years of extensive experience in the Telecommunications, Mining, Agriculture, Transport and Defence industries. Complete Wiring are 100% committed to quality, safety and personalised service.

OUR SATISFIED CUSTOMERS

- Telstra
- Ericsson Australia
- B & R Enclosures
- Boeing
- Ergon Energy
- Rio Tinto
- Brisbane City Council

WHY CHOOSE COMPLETE WIRING

For more than 20 years, Complete Wiring have been providing satisfied customers with custom designed cables and cable solutions. As a Quality Assured Organisation, we take great pride in producing cables to the highest specification and quality requirements, to ensure that our customers receive outstanding personal and professional service at all times.

SPECIALISTS IN SMALL BATCH SIZES

As a manufacturer of custom designed cables, we are equipped to handle a wide range of projects. However, our speciality lies in developing custom made cables for prototyping and small batch sizes. As a Small Batch Specialist, we are able to offer our customers the highest level of personalised service and quality, and our special 100% Unit Checks.

100% UNIT CHECKS

You can expect to receive the highest quality cables from us, consistently. We conduct 100% unit checks, meaning we quality check every single cable we produce.

PERSONAL SERVICE AND SPECIAL ATTENTION

You will receive personal service and special attention from our dedicated customer service and project management teams.

EXTENSIVE EXPERIENCE

You will be working with a well-established business and team that has extensive experience working with multi-faceted partners in high-end complex projects, and a track record of producing high quality products and solutions.

WE UNDERSTAND YOU

Your needs and requirements will be understood. With 16 years extensive industry experience providing high quality custom designed cables and cable solutions to companies large and small, we have a very good understanding of the industries we work with and what they look for in a quality cabling solution.

COMPETITIVE LOW COST MANUFACTURING

You will receive competitive low cost manufacturing, supported by a dedicated technical team.

FULLY TRAINED AND QUALIFIED

You will be working with a team of fully trained and qualified cable manufacturing specialists. We believe that our well trained and fully qualified team will deliver the highest quality products and services to our customers. It is for this reason that each of our team members undergoes extensive in-house training in the correct use of tools and the correct signs of quality, as well as completing a Cert III Manufacturing.

QUICK TURN AROUND TIME

We offers a quick turnaround time from quoting to delivery. We do this by carrying large amounts of stock to ensure we can make it for you in the timeframe you want. Generally lead times can be as low as two weeks for prototyping (based on items being in stock) to four to five weeks for production runs.

CERTIFICATION

You can trust our quality. Our certification provides you with confidence that Complete Wiring adheres to, and upholds, the standards of certification that our customers expect.
